**COMPUTER SCIENCE DEPARTMENT
School of Humanities and Sciences
STANFORD UNIVERSITY**

BIBLIOGRAPHY OF COMPUTER SCIENCE REPORTS

Abstract:

This report lists, in chronological order, all reports from the Stanford Computer Science series (STAN-CS-xx-xxx), Artificial Intelligence Memos (AIM), Digital Systems Laboratory Technical reports (**TR**) and Technical Notes (TN), plus Stanford Linear Accelerator Center publications (**SLACP**) and reports (**SLACR**).

Also, for the first time, we have provided an author index for these reports (at the end of the report listings). The bibliography issued in October of 1973 is hereby brought up to date.

Each report is identified by title, author's name, National Technical Information Service (NTIS) retrieval number*, date, number of pages and the computer science areas treated. Subsequent journal publication (when known) is also indicated.

* If this number is not given it means that the report is not available from NTIS.

IMPORTANT NOTE

BECAUSE OUR REPORTS ARE PRINTED ACCORDING TO A PRE-DETERMINED NUMBER OF REQUESTS, MOST OF THESE REPORTS ARE NOW OUT OF STOCK AND CANNOT BE OBTAINED BY WRITING TO STANFORD. THOSE REPORTS WHICH SHOW A CLEARINGHOUSE STOCK NUMBER MAY BE OBTAINED BY WRITING TO THE NATIONAL TECHNICAL INFORMATION SERVICE, U. S DEPARTMENT OF COMMERCE, SPRINGFIELD, VIRGINIA 22151, U. S. A.

THESES LISTED IN THIS BIBLIOGRAPHY ARE AVAILABLE FROM UNIVERSITY MICROFILMS, 300 NORTH ZEEB ROAD, ANN ARBOR, MICHIGAN 48106, U. S. A.
