BIBLIOGRAPHY
OF
STANFORD COMPUTER SCIENCE
REPORTS, 1963 · 1986

Edited by

Kathryn A. Berg
Taleen Marashian

June 1986

Abstract:

This report lists, in chronological order, all reports published by the Stanford Computer Science Department since 1963. Each report is identified by a Computer Science number, author's name, title, National Technical Information Service (NTIS) retrieval number (i.e., AD-XXXXXX)¹, date, and number of pages.

¹ If this number is not given it means that the report is probably not available from NTIS.

INSTRUCTIONS

In the Bibliography which follows, there is a listing for each Computer Science Department Report published as of the date of this writing. Each listing contains the following information:

- The report number(s)
- The author(s)
- The "title" of the report
- The number of pages in the report
- The month and year it was published
- NTIS number if known
- The cost of a hardcopy version
- Availability code

AVAILABILITY CODES

1. + hardcopy and microfiche
2. M microfiche only
3. H hardcopy only
4. • out-of-print

Please note, microfiche copies of reports are \$2.00 per title. All Computer Science Reports that are in stock may be requested from:

Stanford University
Computer Science Department
Publications Coordinator
Stanford, CA 94305
(4 15 723-4776)

Rising costs and restrictions on the use of research funds for printing reports have made it necessary to charge for reports at their replacement cost. By doing so, we will be able to reprint popular reports rather than simply declaring them "out of print".

Alternatively, reports that are out-of-print at Stanford University in some cases may be ordered (for a nominal fee), in either hard copy or microfiche from:

National Technical Information Service
P.O. Box 1553
Springfield, VA 22161

Reports that are also Ph.D. theses have been so marked and, if out-of-print at Stanford University, may be ordered in both hardcopy and microfiche from:

University Microfilms International
P.O. Box 1764
Ann Arbor, MI 48106
Call toll-free: (800) 521-3042
Michigan, Alaska and Hawaii call: (313) 761-4700
Canada, call toll-free: (800) 268-6090

All of the Artificial Intelligence Memos, which are designated AIM-xxx in the bibliography, are also available in *microfiche* from Comtex Scientific Corporation. Please direct all inquiries about the price and availability of specific titles to:

Comtex Scientific Corporation
850 Third Avenue
New York, New York 10022

For those publications designated *out of print*, another possible source is the Green Library at Stanford University. Please call (415) 723-9418 or send your request for information to:

Technical Information Service
Green Library
Stanford University
Stanford, CA 94305

HOW TO ORDER REPORTS

Send a written request for the reports you would like, ordering by the STAN-CS- number. Please enclose with your order a check or money order in the proper amount for all reports ordered. California residents must add 6.5% sales tax. Purchase orders will not be accepted.

If you are a regular subscriber to our reports you should have a customer number, which must be

used on all orders, payments, and correspondence. If you are not a regular subscriber, you will be given a customer number with your first order. We will send you the number which then must be used for all orders, payments, and correspondence.

We are offering a subscription rate, to academic libraries ONLY, for the amount of \$250.00 per year. For this subscription rate you will receive all Computer Science Reports published for one year in hardcopy form.

Please send all orders, payments, and correspondence to the following address:
